JAPANESE JOURNAL OF OPHTHALMOLOGY

VOLUME 19, 1975

Contents

Ocular Toxoplasmosis .....*G. Richard O'Connor*... 1
The neural basis for pontine and cerebellar control of eye movement.....*D.A. Robinson*... 25
Freeze-etch replica of the outer retina and choriocapillaris.....*Masato Ohkuma*... 39
Photopic electroretinogram. Part I. Studies on normal and color blind subjects.....*Kenji Ui*... 57
Electron microscopic studies on the zonule. 1. Fine structure of normal and ruthenium red stained zonular fibrils in the rabbit and monkey.....*Yoichi Takei & Victoria Ozanics*... 69
Retinoblastoma: Virus-induced retinal tumors.....*Noritsugu Mukai*... 94
Compression ophthalmoscopy .....*Katsuyoshi Mizuno*...102
Visual field changes in primary angle closure glaucoma.....*Takeshi Horie, Yoshiaki Kitazawa & Harumi Nose*...108
A pharmacokinetic analysis of the pupil response to topical pilocarpine and tropicamide.....*Sono Yoshida & Saiichi Mishima*...121
In vivo studies on the permeability of the corneal epithelium with horseradish peroxidase.....*Takeshi Iwata, Masanobu Uyama & Kin-ichi Ohkawa*...139
Disruption of the blood aqueous barrier demonstrated by histofluorescence microscopy.....*Kiyoshi Ohtsuki, Katsuyoshi Mizuno & M.L. Sears*...153
Normal and dynamic aspects of Bruch's lamina as revealed by ruthenium red staining.....*Toshihiko Matsusaka*...166
Chromosomal study in a family with von Hippel disease.....*Kazuo Kawasaki, Takashi Yanagida, Daizo Yonemura, Takeshi Matsuda & Yukimasa Shiraishi*...175
Giant cell tumor of the sphenoid bone: A case report.....*Yoshinao Fukado, Hirofumi Higa & Masao Matsutani*...184
Transpupillary cyclophotocoagulation in hemorrhagic glaucoma: A case report.....*Manabu Mochizuki*...191
Histopathology of cryptophthalmos.....*Atsushi Ide*...199
Aqueous humor dynamics of human eyes as studied using fluorescein .....*Shigetoshi Nagataki*...235
Organophosphorous pesticides as a cause of myopia in school children:

An epidemiological study.....*Osamu Tamura & Yukihiko Mitsui*...250

Posterior subcapsular cataracts in children on long-term corticosteroid therapy.....*Masaki Ohguchi, Shigeaki Ohno, Hiroshi Shiono, Junichi Kadowaki & Akimasa Okuno*...254

Tubular structure in the retina of patients with Behçet's disease.....*Hidehiko Matsuda, Kazuo Ariga, Makoto Igarashi, Mitsunori Kisoh & Seiji Sugiura*...261

Stereographic application of contactography for orbital blowout fractures.....*Shumei Aoshima*...268

A nation-wide survey of Behçet's disease in Japan.
2. Clinical survey.....*Kanjiro Masuda, Goro Inaba, Hiroshi Mizushima & Hideo Yaoita*...278

Endothelial permeability to fluorescein in corneal grafts and bullous keratopathy.....*Yoichi Ota*...286

Retinopathy in lipoatrophic diabetes: Report of two cases.....*Makoto Tamai, Masao Harada & Katsuyoshi Mizuno*...296

Convergence insufficiency and optic neuritis due to antirabic inoculation —A case study—.....*Visootr Chayakul, Satoshi Ishikawa, Supachai Chotibut, Kazuichi Konyama & Tiam Lakanapichonchat*...307

Ultrastructural changes of the trabecular tissues in primary open angle glaucoma.....*Katsuzo Segawa*...317

Studies on intraocular penetration and metabolism of fluorometholone in rabbits: A comparison between dexamethasone and prednisolone acetate.....*Hideyasu Yamauchi, Hirokazu Kito & Kozo Uda*...339

Thickness of the corneal graft after penetrating keratoplasty.....*Chikako Kimura & Teruo Tanishima*...348

Electron-microscopic studies on the corneal graft endothelium in rabbits.....*Chikako Kimura & Teruo Tanishima*...353

Prostaglandins and glaucomato-cyclitic crisis.....*Kanjiro Masuda, Yasuho Izawa & Saiichi Mishima*...368

Electron microscopic studies on zonule.....*Yoichi Takei*...376

Choroidal and optic disc circulation at different intraocular pressure levels.....*Shigeo Tsukahara, Shigetoshi Nagataki, Makoto Sugaya, Sono Yoshida & Yuichi Komuro*...386

Corticosteroid effects on the corneal surface of rabbits studied by scanning electron microscopy.....*Reiko Takashima*...393

Subject Index of Volume 19

Aqueous humor	Disruption of the blood aqueous barrier demonstrated by histofluorescence microscopy (*Ohtsuki et al.*)	153
	Aqueous humor dynamics of human eyes as studied using fluorescein (*Nagataki*)	235
	Prostaglandins and glaucomato-cyclitic crisis (*Masuda et al.*)	368
Behçet's disease	A nation-wide survey of Behçet's disease in Japan. 2. Clinical survey (*Masuda et al.*)	278
	Tubular structure in the retina of patients with Behçet's disease (*Matsuda et al.*)	261
Blowout fracture	Stereographic application of contactography for orbital blow-out fractures (*Aoshima*)	268
Cataract	Posterior subcapsular cataracts in children on long-term corticosteroid therapy (*Ohguchi et al.*)	254
Choroid	Ocular Toxoplasmosis (*O'Connor*)	1
	Freeze-etch replica of the outer retina and choriocapillaris (*Ohkuma*)	39
	Normal and dynamic aspects of Bruch's lamina as revealed by ruthenium red staining (*Matsusaka*)	166
	Choroidal and optic disc circulation at different intraocular pressure levels (*Tsukahara et al.*)	386
Ciliary body	Transpupillary cyclophotocoagulation in hemorrhagic glaucoma: A case report (*Mochizuki*)	191
Cornea	In vivo studies on the permeability of the corneal epithelium with horseradish peroxidase (*Iwata et al.*)	139
	Endothelial permeability to fluorescein in corneal grafts and bullous keratopathy (*Ota*)	286
	Thickness of the corneal graft after penetrating keratoplasty (*Kimura et al.*)	348
	Electron-microscopic studies on the corneal graft endothelium in rabbits (*Kimura et al.*)	353
	Corticosteroid effects on the corneal surface of rabbits studied by scanning electron microscopy (*Takashima*)	393
Corticosteroid	Studies on intraocular penetration and metabolism of fluorometholone in rabbits: A comparison between dexametha-	

	sone and prednisolone acetate (*Yamauchi et al.*)	339
	Corticosteroid effects on the corneal surface of rabbits studied by scanning electron microscopy (*Takashima*)	393
Cryptophthalmos	Histopathology of cryptophthalmos (*Ide*)	199
Electronmicroscopy	Freeze-etch replica of the outer retina and choriocapillaris (*Ohkuma*)	39
	Electron microscopic studies on the zonule. 1. Fine structure of normal and ruthenium red stained zonular fibrils in the rabbit and monkey (*Takei et al.*)	69
	Normal and dynamic aspects of Bruch's lamina as revealed by ruthenium red staining (*Matsusaka*)	166
	Tubular structure in the retina of patients with Behçet's disease (*Matsuda et al.*)	261
	Ultrastructural changes of the trabecular tissues in primary open angle glaucoma (*Segawa*)	317
	Thickness of the corneal graft after penetrating keratoplasty (*Kimura et al.*)	348
	Electron-microscopic studies on the corneal graft endothelium in rabbits (*Kimura et al.*)	353
	Electron microscopic studies on zonule (*Takei*)	376
	Corticosteroid effects on the corneal surface of rabbits studied by scanning electron microscopy (*Takashima*)	393
Electroretinogram	Photopic electroretinogram. Part I. Studies on normal and color blind subjects (*Ui*)	57
Eye movement	The neural basis for pontine and cerebellar control of eye movement (*Robinson*)	25
Glaucoma	Visual field changes in primary angle closure glaucoma (*Horie et al.*)	108
	Transpupillary cyclophotocoagulation in hemorrhagic glaucoma: A case report (*Mochizuki*)	191
	Ultrastructural changes of the trabecular tissues in primary open angle glaucoma (*Segawa*)	317
	Corticosteroid effects on the corneal surface of rabbits studied by scanning electron microscopy (*Takashima*)	393
Intraocular pressure	Visual field changes in primary angle closure glaucoma (*Horie et al.*)	108

	Ultrastructural changes of the trabecular tissues in primary open angle glaucoma (*Segawa*)	317
	Choroidal and optic disc circulation at different intraocular pressure levels (*Tsukahara et al.*)	386
Iris	A pharmacokinetic analysis of the pupil response to topical pilocarpine and tropicamide (*Yoshida et al.*)	121
	Disruption of the blood aqueous barrier demonstrated by histofluorescence microscopy (*Ohtsuki et al.*)	153
	Aqueous humor dynamics of human eyes as studied using fluorescein (*Nagataki*)	235
Lens	Posterior subcapsular cataracts in children on long-term corticosteroid therapy (*Ohguchi et al.*)	254
Ophthalmoscopy	Compression ophthalmoscopy (*Mizuno*)	102
Optic disc	Visual field changes in primary angle closure glaucoma (*Horie et al.*)	108
	Convergence insufficiency and optic neuritis due to antirabic inoculation —A case study— (*Chayakul et al.*)	307
	Choroidal and optic disc circulation at different intraocular pressure levels (*Tsukahara et al.*)	386
Organophosphorous pesticides	Organophosphorous pesticides as a cause of myopia in school children: An epidemiological study (*Tamura et al.*)	250
Prostaglandins	Prostaglandins and glaucomato-cyclitic crisis (*Masuda et al.*)	368
Retina	Freeze-etch replica of the outer retina and choriocapillaris (*Ohkuma*)	39
	Retinoblastoma: Virus-induced retinal tumors (*Mukai*)	94
	Tubular structure in the retina of patients with Behçet's disease (*Matsuda et al.*)	261
	Retinopathy in lipoatrophic diabetes: Report of two cases (*Tamai et al.*)	296
Toxoplasmosis	Ocular Toxoplasmosis (*O'Connor*)	1
Tumor	Retinoblastoma: Virus-induced retinal tumors (*Mukai*)	94
	Giant cell tumor of the sphenoid bone: A case report (*Fukado et al.*)	184
von Hippel disease	Chromosomal study in a family with von Hippel disease (*Kawasaki et al.*)	175
Zonule	Electron microscopic studies on the zonule. 1. Fine structure of normal and ruthenium red stained zonular fibrils in the rabbit and monkey (*Takei et al.*)	69
	Electron microscopic studies on zonule (*Takei*)	376

Index of Authors to Volume 19

A AOSHIMA Shumei: Stereographic application of contactography for orbital blowout fractures 268

ARIGA Kazuo: Tubular structure in the retina of patients with Behçet's disease 261

C CHAYAKUL Vissotr: Convergence insufficiency and optic neuritis due to antirabic inoculation —A case study— 307

CHOTIBUT Supachai: See CHYAKUL 307

F FUKADO Yoshinao: Giant cell tumor of the sphenoid bone: A case report 184

H HARADA Masao: Retinopathy in lipoatrophic diabetes: Report of two cases 296

HIGA Hirofumi: see FUKADO 184

HORIE Takeshi: Visual field changes in primary angle closure glaucoma 108

I IDE Atsushi: Histopathology of cryptophthalmos 199

IGARASHI Makoto: see ARIGA 261

INABA Goro: A nation-wide survey of Behçet's disease in Japan. 2. Clinical survey 278

ISHIKAWA Satoshi: see CHAYAKUL 307

IWATA Takeshi: In vivo studies on the permeability of the corneal epithelium with horseradish peroxidase 139

IZAWA Yasuho: Prostaglandins and glaucomato-cyclitic crisis 368

K KADOWAKI Junichi: Posterior subcapsular cataracts in children on long-term corticosteroid therapy 254

KAWASAKI Kazuo: Chromosomal study in a family with von Hippel disease 175

KIMURA Chikako: (1) Thickness of the corneal graft after penetrating keratoplasty 348

(2) Electron-microscopic studies on the corneal graft endothelium in rabbits 353
